Main exhibits

Foldable and Portable PV Blanket and Lithium-ion Battery

PR Point

Produce Energy by Yourself for Your Own Use!

8W generating PV module made by Amorphous Silicon is arranged in 9 pieces as one set. 9 modules PV, which has a power generation capacity of 72W, with a capacity of 120W/ 200Wh of Lithium-Ion Battery, which can be charged by PV for only four hours, is displayed at our booth.

9 modules PV and the battery together weight only less than 7kg. With our bag pack, women, of course, but even teenagers can easily carry them to anywhere. The battery can charge 10 cell phones at the same time. Because of lightweight, we can offer you our PV system for especially Disaster. Our Bella-Solar series presents you different Wattage panels, 6W, 16W, 20W, 40W, and 72W for you to choose for your application

Bella-Solar.
