Main exhibits

In 2016, our international medical teams of Médecins du Monde have conducted 388 health care programs in 81 countries around the world.

PR Point

Today we are still deploying doctors, nurses, coordinators and logistics specialists to countries or communities that need medical assistance from outside due to natural disasters, armed conflicts or underdevelopment. Our objective is to provide medical care to people who cannot receive treatment despite their illnesses, injuries or mental instabilities, our work and advocacy aim to bring societies to a realization that "health is a human right", we are fighting against the obstacles to access healthcare.
