Official
Website

Introduction

Global space development is accelerating rapidly, driven by large-scale international initiatives. Programs such as NASA's Artemis lunar exploration, expanded ESA-led missions, and advances in satellite and launch systems are fueling unprecedented growth across the space industry.

Japan is actively contributing to this global momentum. JAXA continues to strengthen international cooperation while achieving successive launches of the H3 Launch Vehicle, alongside growing participation from private companies and academic institutions. These developments highlight Japan's strong technological capabilities and manufacturing excellence, which are increasingly recognized worldwide.

In this context, the 6th International Space Industry Exhibition ISIEX 2027 will be held as one of Japan's leading B2B exhibitions dedicated to the space sector. ISIEX brings together companies, research institutions, and industry professionals from Japan and abroad, providing a platform for international exchange and new business creation.

In conjunction with the exhibition, information will be widely disseminated through Nikkan Kogyo Shimbun print and digital media. The associated program, NIKKANKOGYO MOON PRESS, will feature presentations by experts and companies at the forefront of the global space industry.

ISIEX 2027 aims to connect Japan with the global space industry and business community. Participation from all related organizations is warmly welcomed.

Exhibition Outline

Title : International Space Industry Exhibition (ISIEX)
Date : Mar.17 (Wed) - 19 (Fri) 2027 10:00 am - 5:00 pm (JST)
Venue : Tokyo Big Sight, East Hall 7 & 8
Admission : Free for Registrants, Invitation flyer holders, and students under junior high school age.
* For all others, an admission fee of JPY 1,000 will be charged.

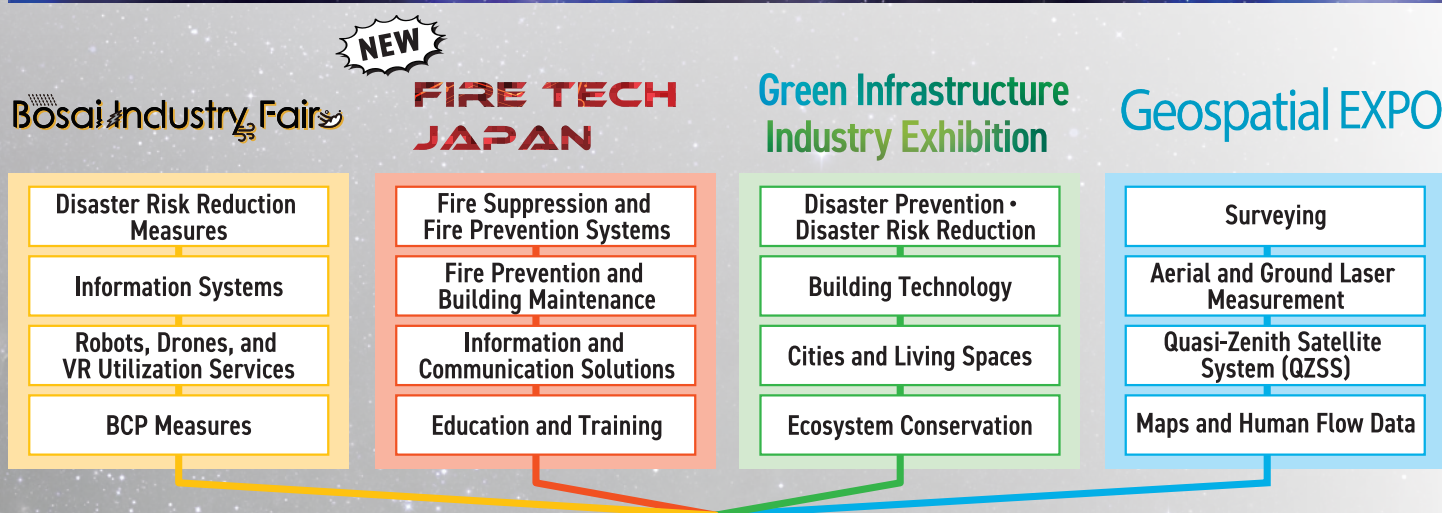

Organized by : The Nikkan Kogyo Shimbun

Under the Patronage of : National Space Policy Secretariat; Japan Aerospace Exploration Agency (JAXA); Ministry of Education, Culture, Sports, Science and Technology (MEXT); Japan Ministry of Defense / Japan Air Self-Defense Force (JASDF); Acquisition, Technology & Logistics Agency (ATLA); European Space Agency; Embassy of Hungary; Embassy of India, Japan; Centre National d'Études Spatiales (CNES); Embassy of Italy - Trade Promotion Section; EU-Japan Centre for Industrial Cooperation; Kenya Space Agency; Business and Investment Development Agency of the Czech Republic; Luxembourg Trade and Investment Office Tokyo; Japan Space Forum; The Japan Society for Aeronautical and Space Sciences; and The Remote Sensing Society of Japan (RSSJ).

(Last edition record, Next request planned, listed in no particular order)*partially in application

Concurrent Exhibitions

Highly related exhibitions will be held concurrently!

Overall Schedule for Exhibitors

Exhibit Categories

Lunar Exploration, Space Resource Development, Planetary Exploration
General contractors, Construction machinery manufacturing, Robots, Mobility

Rocket Manufacturing and Launch Services
Heavy industry, Parts manufacturing, Venture corporations

Rocket Launch Infrastructure
Spaceport development, Local government

Space Living Support (Clothing, Food & Habitation)
Space food, Food production, Environmental conservation, Health care

Space Security and Resilience
Defense communication satellites, SDA satellites, SSA radar systems, AI and digital twins, Cybersecurity

Satellite Manufacturing & Communications Equipment
Communication satellite, Ground station development

Satellite Applications and Services
Satellite remote-sensing, Entertainment

On-orbit Services
ISS development and manufacturing, Space debris removal

Other Space-related Services
Wholesale companies, Investment, Insurance, Space travel

Organizations, Associations and Academia

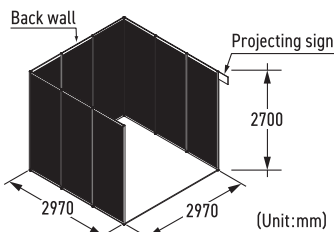

*Not limited to the above.

Standard Booth: Fees & Specifications

Booth Rental Fee 1 Booth (Approx. 9m²: Width 2.97m X Depth 2.97m X Height 2.7m) **JPY 418,000** (Tax included)

Inline Booth

[Example of 1 booth]

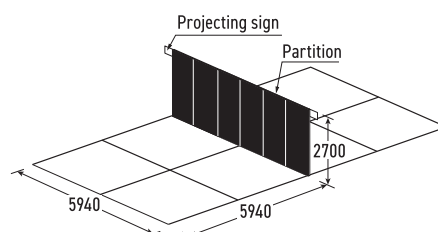

*The secretariat will decide booth location by taking into consideration such matters as exhibit field, exhibit scale, and past exhibit records. Kindly note that requests for specific locations are not accepted.

*Booth location will be informed to the exhibitors in Mid-December 2026.

Peninsula Booth

※4 booths or more

[Example of 4 booths]

*For corner booths, the partition on the aisle side will not be provided unless requested by the exhibitor.

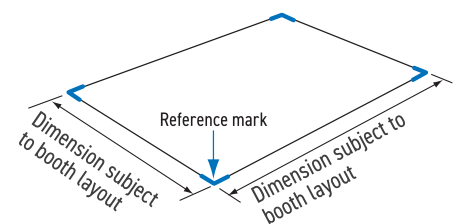

*Back wall cannot be removed regardless of whether or not there is an adjacent booth.

*The back wall and partitions are black system panels.

*No power supplies, lights, carpets, etc. are provided in any of the booths.

Island Booth

※8 booths or more

Basic installation services are available as a package, saving your time and effort of applying for each service separately. Contact the secretariat for details about other packages and how to apply.

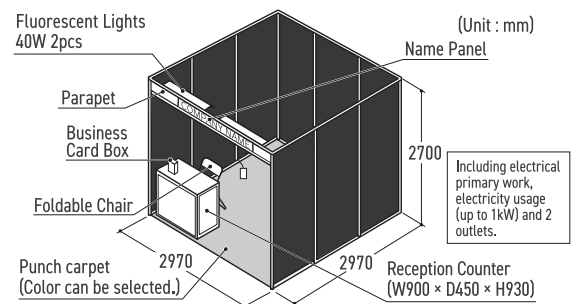

1 Booth Spec.

Booth Rental Fee + **JPY 104,500** (Tax included)

*Package displays of 2 or more booths are also available.

*If your electricity usage exceeds 1kW, you will need to apply for electrical work separately.

*The package comes only one company name board even for a corner booth.

New Higher Education Booth

Bringing Academic and Educational Innovation to the Center of the Space Industry

At the International Space Industry Exhibition ISIEX, a new booth category has been established to widely disseminate research outcomes from high schools, universities, and other educational institutions. Exhibitors are also provided with opportunities to present at the exhibition's associated program, NIKKANKOGYO MOON PRESS, and may utilize the forum as a platform for research presentations and partner exploration. To support the future development of the space industry, academic knowledge and initiatives are encouraged to be shared broadly.

For details on the NIKKANKOGYO MOON PRESS, please refer to the relevant section.

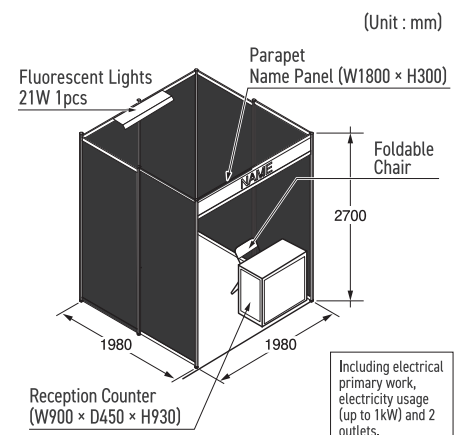

Eligible Institutions

Universities, Graduate Schools, Junior Colleges, and Colleges of Technology

Note: Applications from first-time exhibitors are accepted for up to three consecutive years.

Booth Fee & Specifications: JPY 198,000 (Tax included) per booth
(Approx. 4 m² / Width 1.98 m x Depth 1.98 m x Height 2.7 m)

Note: The fee includes basic booth setup. Please contact the Secretariat if applying for multiple booths.

International Space Conference (Exhibitor Seminar)

The International Space Conference attracts numerous attendees every year who seek the latest information and trends in the domestic and international space industry. Leading professionals from various space agencies, companies, and organizations in Japan and abroad present a wide range of topics, including new products, technologies, services, implementation environments, and success stories. These presentations are creatively designed to enhance awareness and maximize the impact of the exhibition.

Take advantage of this opportunity to expand your network and foster business collaborations.

Seminar applications will be accepted on a first-come, first-served basis, and the secretariat will adjust the time schedule.

Fee 1session (40min) **JPY 165,000** (Tax included.)

Available equipment Podium, projector, microphone, screen, PC, and laser pointer (Internet connection provided)
*Additional equipment is available upon request for an extra fee. Please contact the Secretariat.

*Attendance is free of charge. Handout materials should be prepared by the presenter.

*Upon request, presentations may be archived online after the event. Archived video content should be provided by the presenter.

*Applications are open to exhibitors only.

Time Slot

Date/Time	Mar.17 (Wed)	Mar.18 (Thu)	Mar.19 (Fri)
10:30~11:10	A	G	M
11:30~12:10	B	H	N
12:30~13:10	C	I	O
13:30~14:10	D	J	P
14:30~15:10	E	K	Q
15:30~16:10	F	L	R

Image

Venue: Open space (Special stage in the venue)

Capacity: 100 people

"Highlights of Exhibits" Free Online Listing Feature

The "Highlights of Exhibits" is a free online listing service featured on the admission registration website (joint website for 5 exhibitions). In addition to the company/organization introduction (including website URL and email address), images and detailed information about your products/services can also be uploaded. This feature serves as an effective tool to attract visitors to your exhibition booth.

* Images

The information will act as search keywords, ensuring effective reach to visitors.

- Company/Organization Introduction
- Exhibit Category
- Information on Exhibited Products/Services

- Link to Company Website
- Images

and more!

Associated Program: NIKKANKOGYO MOON PRESS

In response to the continued rapid growth of the space-related industries in Japan and worldwide, NIKKANKOGYO MOON PRESS is held as an associated program of the exhibition.

The forum features presentations primarily by exhibitors and is open to both onsite and online participants, offering a broad range of insights into opportunities for entering the space business and ongoing initiatives in the industry. An overview of the forum will be introduced in newspaper coverage.

Application Procedure

Application Deadline

Nov.13 (Fri) 2026

*If application is made by the deadline, the exhibitor's name will be listed on the invitation flyers.

How to apply

Please be sure to read the "Exhibition Rules and Regulations" and apply only after agreeing to them. Download the application / contract form from the 2D barcode on the right, fill in the required items, and send it to the secretariat by E-mail springfair@nikkan.tech.

*Application may not be accepted if the products and services are not appropriate for the exhibition.

Booth Rental Fee Payment Deadline

Within one month from the date on the invoice

Change or Cancellation of Exhibit Contracts

If you wish to change or cancel your exhibit after your application has been accepted, you must submit the reason in writing and obtain approval from the Secretariat. The following Cancellation Administrative Fees will be applied.

From the date of the application acceptance until November 30 (Mon) 2026

50% of the total rental fee

December 1 (Tue) 2026 or after

100% of the total rental fee

Post Show Results (2026)

Onsite
Exhibition

Exhibition Scale

Attendees

122 companies & organizations **142** booths (Including special project zone)

26,659 (Including concurrent exhibitions)

PR & Advertising (Tentative)

Attract Potential Users from the Manufacturing Industry through Ongoing Promotion Linked to Print Media Coverage

On the Nikkan Kogyo Shimbun newspaper, we will disseminate information on the latest trends in space industry and introduce the technologies of exhibitors. In addition, the exhibition will be promoted to subscribers from all industries by holding events in collaboration with the print edition of the newspaper.

The exhibition will be announced in the Nikkan Kogyo Shimbun, a general newspaper on industrial affairs, to mobilize visitors.

Using our own DM list, invitations flyers will be sent to registered companies and organizations in Japan and overseas. Also, the exhibitors are provided the invitation free of charge to support the attendance of exhibitors.

Newswatch obtains support from a wide range of people by providing easy-to-understand news of the Nikkan Kogyo Shimbun. By disseminating information in conjunction with this website, we will reach out to people other than the newspaper subscriber base.
