THE NIKKAN KOGYO SHIMBUN, LTD.

**Exhibitor Guide**

# Greeting

This exhibition features the newest products and technologies relating to industrial cleaning. Exhibitors show and demonstrate cleaning equipment, systems, and cleaning agents for a range of industries and production sites including metal fabrication, automobiles, electronic and precision parts and more.

The Pan-Exhibition for Wash and Clean has been held since 1984, and celebrates its 27th iteration this year. Industrial cleaning is vital to manufacturing processes, and as a specialized exhibition, we have continually aimed to sustain and improve industrial cleaning and post-cleaning quality and performance while also expanding into related fields. We also aim to improve the scope and quality of prospective clients by holding the exhibition concurrently with other highly specialized industrial exhibitions.

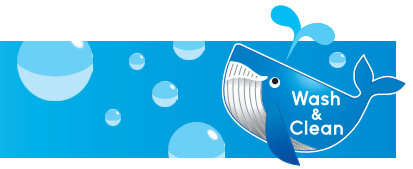

Let the Pan-Exhibition for Wash and Clean help solve your industrial cleaning-related challenges. We sincerely look forward to your participation.

JAPAN WASH INC. Association  
Japan Industrial Conference on Cleaning
